

My House Shut-Off Map

The Suddenly Single Homeowner's Survival Book

Locate and record the shut-offs and systems you may need before an emergency hits.

Use this as a practical planning tool, not legal, medical, financial, home-repair, or mental-health advice. For urgent danger or crisis, contact emergency services or a qualified professional.

Main Shut-Offs

Main water shut-off location	
Water heater location	
Main gas shut-off location	
Furnace gas valve location

Outdoor spigots - front/back/side	
Additional notes	

Do This Today

- Walk the home and physically locate each shut-off.
- Take a photo of each shut-off and save it in a phone album named Home Emergency.
- Tell one trusted person where the main water shut-off is.
- Keep this sheet in a visible home binder.
